

Special Announcement:

FALAB 华碧检测
FAILURE ANALYSIS LABORATORY

復旦大學

Sonoscan[®] Shanghai Office has moved to a new facility within Shanghai FALAB Test Technology Co., an affiliate of Fudan University (復旦大學).

Fudan University (復旦大學) has a long, prestigious history not only within the academic world of China, but worldwide. Shanghai FALAB Test Technology Co. has a CNAS certified license and provides a service platform for reliability and failure analysis of electronic products within Shanghai Fudan University Hi-Tech Park.

When Sonoscan was offered the opportunity to join the FALAB venture offered by Fudan University it did not take us long to understand the symmetry of the collaboration.

Sonoscan has the reputation of being the oldest and best company in the acoustic microscopy business. Our systems and techniques are used by the largest and most technologically advanced companies in the world. We hope to share our expertise with the advancing industries in China through our new affiliation.

A true marriage of traditions from the USA and China!
